Dear Sir:

DECLARATION PURSUANT TO 37 C.F.R. § 1.131

I, Dr. Frank Schiller hereby declare and state that:

1. I am the co-inventor of the subject matter of the above-referenced Application entitled "Automatic Generation Of Diagnostic Programs For SPS-Controlled Systems" filed on November 9, 2002 (the "Application") claiming priority to provisional application 60/318,180 filed September 7, 2001.

2. The Examiner rejected Claims 1-13 of the Application in an Office Action dated February 8, 2006 based, in part, on Lenz et al. (Pub. No. US2001/0032025) filed February 14, 2001 (the "Lenz Application") and claiming priority to provisional application 60/182,247 filed February 14, 2000 ("the critical date") or in the alternative based, in part, on Ramadei et al (Pub. No. US2002/0166082) filed March 2, 2001 (the "Ramadei Application").

3. I developed an understanding and appreciation of the subject matter of Claims 1-13 of the Application prior to the critical date, the priority date of the Lenz Application. Attached herewith as Exhibit A is a German Invention Disclosure Form prepared by me, which was received on June 17, 1998, detailing my understanding of the subject matter of the claims. A correct translation of this Invention Disclosure Form into English is also submitted.

4. From a point prior to critical date continuing through to the filing date of the Application, I worked with a patent attorney retained by my employer to prepare papers for filing. That work included conducting a patentability search and reviewing the resulting references, discussing the invention and possible claims, preparing a draft application, reviewing the draft application and preparing suggested changes, reviewing a revised application, preparing a declaration, reviewing and signing the declaration, and preparing the filed application.
